

"Veritas" School Newsletter, March 2008

SMILE! – The Kindergartners would like to thank Dental Hygienist and Veritas Grandma Barb Gill (Abigail Hanson's Grammy) for donating the toothbrushes, toothpaste, and floss for our "Tooth Assembly." "Brush, brush, brush your teeth, brush them every day...we put toothpaste on our brush to help stop tooth decay!"

Barb Gill: *"I first read the story "George Washington's Teeth" then talk about how we can keep our teeth for a lifetime if we take care of them. Then the students get to be scientists do the Crest egg experiment. It is always a big hit. All of the students and staff in the school have heard about it and cannot wait for the end of the experiment to see if the fluoride in the toothpaste protects the egg."*
