9:00 AM – 12:00 PM

Continuing Education Course #1: Facts and Lies: Trendy Research Topics - Part I (3 CEU)

Speaker: JoAnn R. Gurenlian, RDH, PhD

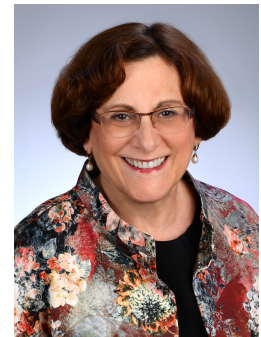

Presented by: Colgate Oral Pharmaceuticals

Course Description:

Ever wonder if what you are reading in the literature or hearing at scientific conferences is correct? Does some information sound too good to be true? This course is an opportunity for us to review current health information and decipher it to determine which statements are true and which ones might be stretching the facts! We will discuss how to use current information in your practice setting to make oral health education and treatment relevant for your patients. This class may be taken as an individual session or as a full-day session with Part II in the afternoon.

Speaker:

JoAnn R. Gurenlian, RDH, PhD, is Professor and Graduate Program Director for the Department of Dental Hygiene at Idaho State University. She is the Immediate Past President of the International Federation of Dental Hygienists (IFDH) and a Past President of the American Dental Hygienists' Association (ADHA). Dr. Gurenlian maintains a column titled "Looking Ahead" in RDH magazine, and is co-author of a textbook Preventing Medical Emergencies. She has conducted over 550 presentations and published over 220 papers. She has been active in dental hygiene for over 35 years as a leader, educator, clinician, administrator, researcher, and international speaker.

Continuing Education Course #2: Supportive & Meaningful Exchanges Despite Dementia (3 CEU)

Speaker: Angela Stewart-Greenleaf

Course Description:

How comfortable are you in assessing, interacting with, and treating patients with dementia? Do people with dementia like you? Why or why not? Do you know the politically correct verbiage to use regarding this topic? This course will increase your awareness, confidence, and skills in supporting patients with dementia, as well as, their advocates. Although this information is tailored at supporting aging adults with a failing brain, you will find the information useful with younger patients, and even with your own relationships. An individualized approach for each patient can result in successful care. Good oral health for people directly contributes to better quality of life, and good relations and interactions may foster better oral health. This course will present the symptoms of dementia and effective techniques to manage or prevent challenging situations while meeting the needs of your patient. Topics will include how to recognize the stages of the disease, and tips and tools to successfully provide care to those who are simply self-advocating.

Speaker:

Angela Stewart-Greenleaf works at Touchmark as the Health Services Director. In this role she oversees residential care services in the Attended Living, Pembroke, and Memory Care service levels. Prior to this role she served Touchmark as the Memory Care Administrator and Life Enrichment Wellness Director. Her personal growth and leadership reflect varied experiences including working with people living with Alzheimer's disease and other dementia illnesses, and helping others learn the skills required to meet their needs. Angela is a Certified Best Friends™ Master Trainer and Certified Cognitive Stimulation Instructor. She holds a M.A. in adult education with a gerontology emphasis from the University of Wyoming. Her undergraduate work was at Sterling College, where she earned a B.S. in Education and B.A. in Art Therapy and learned about the essence of servant leadership—a focus she integrates into her professional work.

1:30 PM – 4:30 PM

Continuing Education Course #3: Facts and Lies: Trendy Research Topics - Part II (3 CEU)

Speaker: JoAnn R. Gurenlian, RDH, PhD

Course Description:

Are e-cigarettes safer than cigarettes? Does professional plaque removal make a difference? Do patients with prosthetic joint implants require antibiotic premedication? This course expands upon the opportunity to explore the science behind common beliefs and misperceptions that frame oral health care. Participants will review evidence that supports or refutes current practices and evaluate what constitutes quality evidence. Clinicians will engage in decision-making skills that will define best practices. This class may be taken as an individual session or as a full-day session with Part I in the morning.

Speaker:

JoAnn R. Gurenlian, RDH, PhD, is Professor and Graduate Program Director for the Department of Dental Hygiene at Idaho State University. She is the Immediate Past President of the International Federation of Dental Hygienists (IFDH) and a Past President of the American Dental Hygienists' Association (ADHA). Dr. Gurenlian maintains a column titled "Looking Ahead" in RDH magazine, and is co-author of a textbook Preventing Medical Emergencies. She has conducted over 550 presentations and published over 220 papers. She has been active in dental hygiene for over 35 years as a leader, educator, clinician, administrator, researcher, and international speaker.

Continuing Education Course #4: Make It Stick: Local Anesthesia Review Course for Dental Hygienists (3 CEU)

Speaker: Donna Eastabrooks, CDA, RDH, PhD

Course Description:

This course is designed for dental hygienists who want an update on traditional techniques in local anesthesia. This course will include a review of oral anatomy, local anesthetic agents, and administration techniques for effective, pain-free anesthesia.

Speaker:

Donna Eastabrooks, CDA, RDH, PhD, is an adjunct professor at the University of Bridgeport in Connecticut and has been involved in dental assisting/hygiene education for over 40 years. Formerly a professor and clinic coordinator for Manor College Dental Hygiene Program near Philadelphia, Dr. Eastabrooks has designed and taught courses on local anesthesia, head and neck anatomy, oral radiology, dental anatomy, and various board review courses. Dr. Eastabrooks is a professional online educator, chapter editor for the 4th edition of Dental Hygiene Theory and Practice, book reviewer, and proposal reviewer for several professional organizations. She is a member of the American Dental Hygienists' Association (ADHA), American Dental Education Association (ADEA), Organization for Safety, Asepsis and Prevention (OSAP), American Association for Adult and Continuing Education (AAACE), as well as other higher education organizations.

SATURDAY, MAY 20, 2017

9:30 AM – 12:30 PM

Continuing Education Course #5: The Business of Dentistry & Dental Hygiene - Part I (3 CEU)

Speaker: Duke Aldridge DDS, MBA, MAGD, DICOI, MICOI, FMISCH

Course Description:

This course will provide an overview of the current challenges facing dentists, dental hygienists and team members in the NEW Dental World and offer solutions to remain recession proof in any economy. A strong emphasis on the business of dentistry will be emphasized.

Today's most current, concise, and state of the art evidence based upon teachings that can be implemented immediately to increase your production and profitability. All materials incorporate best practice analytics (BPA) designed to increase production that is sustainable while achieving 5 star customer service.

Speaker:

Dr. Duke Aldridge is the founder and CEO of Aldridge & Associates, LLC. Aldridge & Associates is a Dental Analytics and Practice Management Consulting Company committed to optimizing company profits through proven business methodologies and clinical efficiency. As a highly successful and innovative dentist, Dr. Aldridge built one of the most productive and profitable dental practices in the Northwest. Dr. Aldridge is a master clinician and dental businessman who combines his clinical skills and business acumen to help dentists and group practices reach their ultimate potential. He also serves as a manuscript reviewer, mentor and writer for the Academy of General Dentistry (AGD). He earned his Diplomate and Mastership designation with the International Congress of Oral Implantologist and is a Fellow with the Misch International Implant Institute. Dr. Aldridge has published and lectured nationally and internationally on "Why Dentist Should Learn to Place and Restore Dental Implants", the use of intra-oral cameras, digital radiography and multiple practice management programs. Dr. Aldridge serves on the consultant board for the "The Next DDS" and is an advisor for the American Academy of Implant Dentistry (AAID). He is also a recipient of OSHA's most prestigious Safety Health Achievement Recognition Program (SHARP).

Continuing Education Course #6: Applications and Benefits of Silver Diamine Fluoride in Dental Clinic Settings (3 CEU)

Speaker: John Frachella, DMD

Course Description:

This course will present new options in the management of carious lesions, especially in specific situations and with certain populations. Over the past decade, the speaker has been using silver solutions in combination with glass ionomer technology to arrest caries while simultaneously addressing destructive dental cavitation (**Silver Modified Atraumatic Restorative Technique - SMART**). Minimally invasive medical management of caries is a new, historically proven, highly preventive standard of care for the treatment of worldwide populations of children and special needs adults who desperately need dental services the most.

Speaker:

John Frachella, DMD is a pediatric dentist in Oregon and Maine with more than 40 years of experience in the delivery of dental services in public and private settings. For the first 32 years of his career, he was dental director for a free clinic for indigent children in Bangor, Maine and for ten years he served as the director of Asher Dental Services in Wheeler County, Oregon. He also works in private practices across the country, is on staff at the OHSU School of Dentistry and lectures for Lutheran Medical College dental residency programs. Dr. John Frachella is a national leader in the use of SDF and how SDF impacts dental schools and clinical practice.

2:00 PM – 5:00 PM

Continuing Education Course #7: The Business of Dentistry & Dental Hygiene - Part II (3 CEU)

Speaker: Duke Aldridge DDS, MBA, MAGD, DICOI, MICOI, FMISCH

Course Description:

This course will provide an overview of the current challenges facing dentists, dental hygienists and team members in the NEW Dental World and offer solutions to remain recession proof in any economy. A strong emphasis on the business of dentistry will be emphasized. Incorporate systems, scripting, processes, organization, and team accountability designed to increase profitability while decreasing stress. As a TEAM leader incorporate the knowledge you gain at this event and watch your practice soar.

Speaker:

Dr. Duke Aldridge is the founder and CEO of Aldridge & Associates, LLC. Aldridge & Associates is a Dental Analytics and Practice Management Consulting Company committed to optimizing company profits through proven business methodologies and clinical efficiency. As a highly successful and innovative dentist, Dr. Aldridge built one of the most productive and profitable dental practices in the Northwest. Dr. Aldridge is a master clinician and dental businessman who combines his clinical skills and business acumen to help dentists and group practices reach their ultimate potential. He also serves as a manuscript reviewer, mentor and writer for the Academy of General Dentistry

(AGD). He earned his Diplomate and Mastership designation with the International Congress of Oral Implantologist and is a Fellow with the Misch International Implant Institute. Dr. Aldridge has published and lectured nationally and internationally on “Why Dentist Should Learn to Place and Restore Dental Implants”, the use of intra-oral cameras, digital radiography and multiple practice management programs. Dr. Aldridge serves on the consultant board for the “The Next DDS” and is an advisor for the American Academy of Implant Dentistry (AAID). He is also a recipient of OSHA’s most prestigious Safety Health Achievement Recognition Program (SHARP).

Continuing Education Course #8: Implementing SDF Into Your Clinical Practice (3 CEU)

Speaker: John Frachella, DMD

Course Description:

This course will focus on how to implement an SDF program into your clinical practice. Indications, contraindications, risks and benefits of SDF will be discussed. This course will include reimbursement options, ethical issues, and how to evaluate the effectiveness of SDF in your practice setting.

Speaker:

John Frachella, DMD is a pediatric dentist in Oregon and Maine with more than 40 years of experience in the delivery of dental services in public and private settings. For the first 32 years of his career, he was dental director for a free clinic for indigent children in Bangor, Maine and for ten years he served as the director of Asher Dental Services in Wheeler County, Oregon. He also works in private practices across the country, is on staff at OHSU School of Dentistry and lectures for Lutheran Medical College dental residency programs. Dr. John Frachella is a national leader in the use of SDF and how SDF impacts dental schools and clinical practice.
